### WELCOME

This is our first Edition of the new NA Hollywood Newsletter: **The Hollywood NA Times**. We hope you will find it inspiring, informative, encouraging, and just plain enjoyable. The Hollywood NA Times will be published six to twelve times per year and copies will be available at the area meetings. The Newsletter will also be available online. Each Edition will have a theme related to recovery and articles, essays, and any other contributions will reflect that Edition's theme. Everyone is welcome to contribute a personal essay, perspective, article, poem, testimony, as well as art work that reflects the principles and tenets of Narcotics Anonymous. Most issues of **The Hollywood NA Times** will also include *Member Birthdays/Anniversaries*, various *Happenings /Events* in the Hollywood Area, and a *Committee/ Meeting Spotlight Section* that will publicize NA Meetings throughout Hollywood. We are open to any and all ideas. Please contact myself or Julia I. with any questions or concerns you may have. Any contributions to the Newsletter may be sent to the email below. During this time of Covid restrictions, any member may receive their own personal copy via email by requesting one at the email below as well. Thank you for the opportunity to be of service.

No matter how you look at it, HOPE "is the optimistic state of mind that is based on an expectation of positive outcomes with respect to events and circumstances in one's life." Thank you Marty F., Todd G., and "Anonymous" for sharing your experience, strength, and HOPE with us.

### Dope? Nope. Hope!

By TODD G. 6/17/90

Hope is so important to life, especially for those of us in recovery. Even in the darkest depths of my using, I always felt a small glimmer of hope. I didn't know what to do with it or how to make it grow, unfortunately. It certainly didn't keep me from getting loaded at first. But it was always there... just enough to keep me going to one more meeting after yet another relapse. For me, this was a tiny but real gift from my Higher Power, embodied in our very important slogan "keep coming back." This was thirty years ago now. Since then, hope has grown for me and is still just as important as ever-- because life continues to be challenging even without drugs.

The rooms of recovery are where I have always found hope: listening to true, personal stories from the depths of despair, and the power of God's grace changing addicts' lives, one step at a time. Hearing others' experiences of fear and challenge, then how these were gradually overcome with the help of others in the program, has been a constant source of hope for me from the very first meeting I fearfully crept into. I am so grateful for this gift-- generously offered to me by fellow addicts each time they share honestly at meetings. Thank you all for helping me to recover, a day at a time.

### WE HAVE TO HAVE HOPE

By MARTY F. 8/20/98

Coming into this fellowship, one of my big concerns was will I ever get back to the place I was years before I got into my addiction. That was my dream. That was my hope. But that dream didn't feel real, at least not in the beginning. Even though I didn't lose anything, in my addiction, I did lose my self worth and dignity. I didn't ever think I would go back to that place where I felt self respect and dignity.

As time went by, working the steps with my sponsor, accepting help from other addicts, taking on commitments, and feeling a part of this fellowship, that desire of hope slowly starting coming back. I was beginning to believe in myself again. My dreams and expectations were starting to be met, and beyond some. In August 2020 I will be celebrating 22 years of recovery. How? Why? I never got off that train since day 1. (con't top of page 2)

## WE HAVE TO HOPE (Con't)

By **MARTY F.** 8/20/98

We are all going through difficult times in 2020, but I honestly have hope that this too shall pass. Back in the 80's and 90's during the AIDS crisis, I was on the front line being HIV positive since the early 80's. We all lost too many people during that era. So this is not my first health scare. I lived through that, and we will get through this. We just have to have hope, hang on, and stay on that train!

## SUITCASE FULL OF HOPE

When I first came to California, I had a suitcase full of hope. However, that hope was slowly eradicated as I started using drugs. Using destroyed any semblance of spirituality and as long as I used, hopelessness dogged me relentlessly. I remember coming down from days of using, staying up – never sleeping, not eating, debasing myself and thinking that this would be my pitiful existence for the rest of my life. I could not imagine anything else as the disease had me wrapped up in a huge cocoon of lies and self-hate. I knew God was there for me, but I was not there for Him. It wasn't until I completely surrendered to God and to the principles of NA that hope started to be re-introduced into my vernacular and daily life. I started to hope that there might truly be a life for me without the use of drugs – I started to hope that maybe, just maybe, I could achieve some of my dreams, if not all of them. My journey did not end there, but from that first time I surrendered to a Power greater than myself and the Principles of Narcotics Anonymous, hope has always been at the forefront of my spiritual path. *(Anonymous)*

A sampling of worldwide times for Unity Day

Unity is the key to our survival and the beginning of our miracle. Practicing unity can be as simple as a smile—but it can also be one of the most difficult things we do. For the alienated, frightened, and resentful people many of us were when we got here, "our common welfare" can be hard to imagine. Our personal recovery depends on a principle we may never have experienced. Practicing unity is an act of faith.

## BLACK ROSE

By Jacqui A.

A black rose has no thorns  
When shielded by a gleaming moon  
The night brings power to the soul  
Outer darkness...inner mystery

The sun is like a piercing sword  
There is no guiding light  
It's brightness is deceiving  
Compared to everlasting night

Black and white in empty void  
Heart engulfed by blinding light  
Black rose enclosed in gold cocoon  
It's time that butterfly leave the womb

Black larvae meets the spider sun  
She's wrapped inside his web-like gaze  
She craves the safety of the night  
Sun spirals back in spider maze

When dreaming of the spider sun  
Heart darkens from the blinding light  
Black rose becomes the gleaming moon  
His beam transcends eternal night

## Recovery

By KL

Don't feel disillusioned by where you are now  
your progress is good enough  
it's meaningful  
it's on time  
though everything may go unacknowledged  
every silent step is movement  
in the right direction

when it feels as though  
everyone is going forward  
and you're being pulled back by  
your own demons or your past  
remember that every moment in this journey  
will play its part in the greater narrative —  
what a beautiful story to share one day  
written just by living your life.

## SO WHAT DO THE KEY TAGS SYMBOLIZE?

**WHITE** - The international color of surrender. This key tag is for anyone at their first NA meeting, back after a relapse, or just want to surrender to their disease today.

**ORANGE** - Orange you glad you found NA?

**GREEN** - Clean & Serene. FROG = Fully Rely On God! The color of money. We aren't spending it on dope anymore. Green for GO! Go to a lot of meetings. The grass is greener on the NA side.

**RED** - Stoplight, stop & look at your program. We should have RED our Basic Text by now. The color our eyes used to be when we got high.

**BLUE** - 1/2 a cake! It's blue so we don't have to be. The color of our Basic Text. Hopefully, we've seen one, opened one, better yet, read one by now.

**YELLOW**, my name is \_\_\_\_\_, I am an addict. It represents the sun. We can see it when we get up in the morning, instead of coming in after a night of using.

**GLOW IN THE DARK** - So we don't have to. They also say we have an inner glow at this time.

**GRAY** - Battleship gray. The war is over and we never have to use again. The only one with silver writing. It represents that behind every gray cloud is a silver lining.

**BLACK** - Keep coming back! Black is the absence of all colors, just like the absence of drugs in our lives. We've been in the dark long enough. Gold on black because we kept coming back or black on gold because we did what we were told. The color of coal. When coal is compressed it turns into a diamond, and We are all diamonds!

## AREA COMMITTEE SPOTLIGHT: LGBTQ

## MEETING SPOTLIGHT

## Identification With Others

Many have asked, "Why do we need an LGBTQ Committee?" According to our First Tradition we are equal and all are welcome. This is true and this ideal is a beautiful principle of Narcotics Anonymous. As a gay man, I am grateful for the tolerance and acceptance I have experienced here in NA. I have seen a transformation of myself through working the 12 Steps and I am continually having many spiritual awakenings in my recovery. For this I am truly grateful.

## What made me stay?

As I look back, I realize that I was determined, no matter what, to get clean. I know now that this determination is an asset that I have had all my life. For what ever reason, I have always been able to do what I thought was right for me in spite of the odds. I became a cheerleader in high school, I changed my major in college to music, I left college to become a dancer, I had no problem telling my parents that I was gay. All of these I did against my parents' wishes, which was huge as an only child raised to honor my parents.

## What about the addict who does not have this conviction?

I have had to learn over time that "Anyone may join us..." is up to me. As an addict who is defined by my identities (rightly or wrongly), I can identify with those who have lived with identities. These identities we are born with. These identities we cannot escape easily or at all. Again, I have had to learn the principle of the First Tradition. As a newcomer, I knew nothing. Newcomers bring with them all of their learned messages (rightly or wrongly).

The only requirement for membership is a desire to stop using. Is safety in meetings important? I don't know what it is like to be a woman. I don't know what it is like to grow up White. I do know what it is like to be constantly judged by the identity I cannot escape. Sometimes it is not nice, and I have learned to be on guard because I do not know if I will be accepted. Right or wrong, this is my life and I accept it. So I identify with the need for Women's meetings. I identify with the need for young addicts to see and recover with other young addicts. I identify with the feeling of safety.

Women's meetings, the Youth Committee, the LGBTQ Committee...Why? Safety. I wish this wasn't an issue. It would be ideal. The disease of addiction does not discriminate, but people sometimes do.

LGBTQ addicts have many convictions. Some are so frightened and untrusting. Many come to Hollywood because they feel this is the only place they can feel accepted. I am honored to be a member of NA in the Hollywood Area because you have made me feel safe. The reality is that we are the exception not the rule. The LGBTQ Committee carries our message to all addicts. We understand and identify with addicts who need safety.

MARC O.
